DATE	EXPLANATION	AMOUNT
December 15	Since 2002, more Texas drivers have begun wearing seat belts. This has saved over \$6.6 billion dollars in insurance premiums, medical care, property damage, lost productivity and travel delays. It has also saved more than 1,600 lives and prevented 37,000 injuries.	6,600,000,000.00

Buckling up is good for business and good for your family.

The simple act of wearing a safety belt may be the easiest, least expensive and most effective way to prevent traffic deaths and injuries on and off the job.

Buckle Up. Every Time. All the Time. Don't let a member of your family, a friend, or co-worker drive without a safety belt, because it's not about money. It's about saving Texans lives, and they're priceless.
